

12v lithium battery pack to power the dvd

Overview

What is a 12V lithium ion battery pack?

A 12V lithium ion battery pack is a battery pack made up of three or four lithium batteries connected in series and several lithium batteries connected in parallel. This configuration allows the capacity of a 12V lithium battery to be customized.

What is a rechargeable 12v battery pack?

Rechargeable 12V Lithium-Ion battery packs are a perfect power source for those on-the-go lighting applications. They are a convenient solution for on-the-move applications (bike lights, costumes, etc) that need a portable power source or the applications where there is not an easy way to connect to power.

Can a 12V battery charge a cell phone?

Models with the optional 5V USB output provide an on-the-go charging capability for cell phones, tablets and other USB charged electronic devices. Our rechargeable 12v battery packs come with everything you need to make your 12V lighting mobile. Within each box is the battery itself along with a travel wall-charger (US receptacle).
