

Albania Photovoltaic Container Factory

Overview

Does Voltalia have a solar project in Albania?

Karavasta was one of two solar projects awarded to Voltalia under tenders organised by Albania's Ministry of Infrastructure and Energy (MIE) and sponsored by the European Bank for Reconstruction and Development. Voltalia's second project in Albania, the 100MW Spitalla Solar plant, has yet to be completed.

What is Voltalia doing in Albania?

Voltalia has started doing business in Albania in 2018 with the unsuccessful participation in the first solar tender organized by the Ministry of Infrastructure and Energy of the Republic of Albania ("MIE"). Despite this result, Voltalia has demonstrate great interest in the construction of 2.5 MW FiT-solar PV projects.

Is Voltalia a good solar company?

Despite this result, Voltalia has demonstrate great interest in the construction of 2.5 MW FiT-solar PV projects. So far, Voltalia has built 3 of such solar plants for third parties. These 3 projects have been operating for several months now and have contribute to strengthen Voltalia image among the solar players.

Is Voltalia a regulated company?

The company is listed on the Euronext regulated market in Paris. In the meantime, the Ministry of Infrastructure and Energy of Albania held another auction for photovoltaic projects, in which Voltalia also participated, and one for wind power. [Home » News » Renewables » Voltalia starts building Spitalla PV plant in Albania of 100 MW.](#)

Is agrisolar a viable solution for a growing rural economy in Albania?

About 20% of Albania GDP relies on agriculture that employs about 60% of the population (as of 2020). Hence, agrisolar (and agrivoltaic) projects are among

the most effective solution for a growing rural economy. Karavasta Solar Project - 140 MW | Voltalia's first development in Albania | Voltalia has started doing business in Albania in 2018.

What agrisolar projects is Voltalia working on?

Target projects are mostly solar PV and wind. But not only. Voltalia is also working on agrisolar projects, where the food production and the power generation are combined for the upmost use of the lands. About 20% of Albania GDP relies on agriculture that employs about 60% of the population (as of 2020).
