

# **Australian battery storage box customization company**

## Overview

---

### Who is Battery Works Australia?

Battery Works Australia specializes in battery storage solutions, having transitioned from a battery re-packing business to becoming a leading distributor of battery systems, including Victron Energy products. Their expertise and national distribution capability ensure enhanced system design and technical support for various battery applications.

### What kind of battery does a custom battery-built battery box use?

A custom battery-built battery box can either be built using a lithium or deep cycle battery. At AAEAC we use the two most trusted brands, Enerdrive and Invicta batteries. In consultation with you, we can include a DCDC charger or isolator of your choice, plus any additional accessory sockets, and in some cases also an inverter.

### What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

### What is a portable battery box?

Portable battery boxes are the ideal alternative to a conventional dual battery system installed into your vehicle. They give you the freedom to take power away from your vehicle and provide the perfect solution for camping, caravanning, 4WD, and worksites.

### Does Australia offer rebates on small-scale battery systems?

The Australian government has launched their new scheme to support households and small businesses by providing rebates on the installation of small-scale battery systems. Click below to discover how to make the most of

the offer. PowerPlus Energy offers innovative energy storage solutions for a sustainable future.

How do I store my batteries?

Standard or custom designed racks, cabinets and cubicles to store your batteries conveniently, safely and securely. Our racks, stands and enclosures are designed and built to comply with Australian Standards. To endure tough environments, the robust design keeps your investment in optimal operation.
