

Australian photovoltaic curtain wall manufacturer

Overview

What is photovoltaic curtain wall?

Photovoltaic Curtain Wall generates energy in the building implementing solar control by filtering effect, avoiding infrared and UV irradiation to the interior.

What is a fully unitised curtain wall system?

The fully unitised curtain wall systems from Envirotech Facade Solutions are revolutionary in their design. They all have the capability to accept almost unlimited IGU thicknesses with their interchangeable bead concept.

Can a curtain wall integrate photovoltaic panels?

. capping, skylights), this curtain wall can integrate photovoltaic panels. A photovoltaic solar generator integrated in the skylight . Curtain wall and glass for production of electricity by solar energy.

Are curtainwall systems available in aluminium & thermally broken aluminium systems?

They are also available in both aluminium and thermally broken aluminium systems ensuring not only they perform structurally but also thermally. Our technical staff are available to help with your design and construct requirements. Curtainwall Systems by Envirotech Façade Solution offer innovative designs and unmatched durability.

Is Yuanda a good curtain wall manufacturer?

In 1996, Yuanda became the first curtain wall manufacturer anywhere in the world to achieve ISO9001 international quality certification. Over the last 27 years, the company has demonstrated time and again its compliance with testing standards in the United States, the United Kingdom, China and Europe.

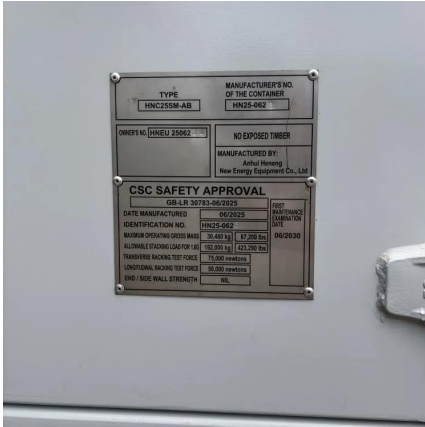

What is photovoltaic architectural glazing?

Photovoltaic architectural glazing enables buildings to produce extra energy while maintaining their design, functionality, and views. They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment.
