

Austrian solar panel factory

Overview

How many solar panels does Austria need?

With more than 3,500 MW thermal the country ranks second in the EU, only behind much larger Germany. Austria aims to achieve a 100% renewable electricity production by 2030 with 1,000,000 homes having solar panels fitted by that date. 11 TWh of extra photovoltaics will be needed above 2021 levels.

How much solar power does Austria generate?

Solar power in Austria contributes 8.82 TWh of generation to the Austrian grid, accounting for 11.2% of total electric power generation as of 2024, with 8.48 GW of installed capacity.

Who built Austria's largest solar thermal plant?

Austria's largest solar thermal plant, covering an area of 5,700 square meters, was built by KPV Solar. The plant was recently opened by Climate Protection Minister Leonore Gewessler and Governor Peter Kaiser.
