

BESS photovoltaic folding container wholesale in the UK

Overview

What is a Bess battery system?

BESS (battery energy storage system) or battery containers are most commonly built using converted shipping containers. Primarily used to store power generated by renewable energy sources such wind and solar, BESS battery systems are key to global carbon reduction.

What is a Bess container?

The Eldapoint Group BESS containers range is custom-designed to provide highly efficient housings for renewables. Built to satisfy the most demanding environments and LPCB requirements, we specialise in Lithium-ion battery enclosures. Our BESS range offers three sizes to cater to diverse requirements.

What makes a Bess enclosure eco-friendly?

The BESS enclosure range includes eco-friendly materials and sustainable design practices. Using recyclable materials and energy-efficient construction methods aligns with the broader goal of promoting greener energy sources. The Eldapoint Group is the preferred choice for customers in the renewable energy sector.

What is the second Bess project?

Our second second BESS project is a 50 MW, 2-hour duration battery storage site in Cathkin, East Kilbride, Scotland. It is also due to open in spring 2025. Watch this time lapse video, which shows the successful delivery of key equipment, including batteries and power conversion units, by Canadian Solar (e-STORAGE).
