

# **Barbados Energy Storage Photovoltaic Enterprise**

### **Overview**

This ambitious project, spearheaded by the Barbados Electric Light & Power Company (BLPC), is a pivotal move towards the island's transition to clean energy. By storing solar-generated power for use during peak evening hours, this initiative supports a more sustainable and reliable energy supply. What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a. Continue reading  $\rightarrow$ .

How many solar PV community solar gardens are there in Barbados?

Blue Circle Energy has over 40 solar PV Community Solar Gardens under development in Barbados, ranging in size from 250kW to 5MW. The project sites are distributed throughout the island, are located in each of Barbados' 11 parishes, and are sited and scaled to integrate with the community's natural and agricultural heritage.
