

Barbados PV Energy Storage Subsidy

Overview

What is Barbados' energy policy?

Generally, it is the goal of the Government to transform Barbados from a fossil fuel based economy to a 100% renewable energy and carbon-neutral island state by 2030. An integral component in achieving these policy objectives is the provision of concessions aimed at stimulating, in particular, private sector investment in the energy sector.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is “high”. If you could purchase a. Continue reading →
