

Battery cabinet manufacturer in Nauru New Zealand

Overview

What is a lithium ion battery cabinet?

For larger businesses, this Lithium-ion battery cabinet makes the most of the clever double-wall, sheet steel design, which provides a thermal air defence to slow the advance of any battery fire. Extra space inside gives more storage options for larger batteries (think scooters, e-bikes etc) as well as the charging equ.

Do you need a flammable goods cabinet for lithium-ion batteries?

Lithium-ion battery management is a serious business. You should never choose a flammable goods cabinet to house your lithium-ion batteries - too many risks! If it was that simple we would have lead you to our Flammable Goods Cabinet range. 1 x 240V German designed fan to keep batteries cooler while charging.

Why should you choose a lithium-ion battery cabinet?

Whether from impact, overcharging, or internal fault, even small battery packs can pose a significant hazard — especially when stored in bulk. Our Lithium-ion Battery Cabinets are designed to minimise this risk through controlled, ventilated and secure containment.

How many batteries can be stored in a cabinet?

Our cabinets accommodate 4 batteries per compartment, with total capacities ranging from 4 stations (1 compartment) to 20 stations (5 compartments). The Heavy Duty model specifically supports 48V batteries, while other models accommodate various lithium-ion battery types with their respective chargers.
