

Benin Inverter Photovoltaic Factory

Overview

Illouloufin Solar Power Station, is a 50 megawatts (67,000 hp) power plant in , whose first 25 MW was commissioned on 19 July 2022, and the next 25 MW is under construction and is expected to come online in 2025. The solar farm is under development by the , with funding from the (EU), the (AFD) and the Beninese Electricity Company (SBE).

Who is building Benin's biggest solar power plant?

Eiffage Énergie Systèmes is building Benin's biggest . Beninese Electrical Energy Company SBEE has appointed Eiffage Énergie Systèmes' teams (and teams from our subsidiary RMT in particular) to build a photovoltaic solar power plant and a high-voltage bay enabling the plant to be connected up to the national power grid.

How will the Beninese solar power station work?

The power station will be built in phases, with the first phase of 25 megawatts capacity followed by the second phase of equal magnitude. The energy from this solar plant will be integrated into the Beninese national electricity grid, during the 25 years of the solar farm's expected lifespan.

Will defissol help Benin reduce its energy bill?

Onigbolo power plant construction project, known as Defissol, is co-funded by the European Union (EU), French Development Agency (AFD) and the SBEE. It should allow Benin to reduce its energy bill, while enhancing the value of renewable energies.
