

Botswana's photovoltaic and energy storage system

Overview

By 2030, 140MW of BESS will be needed to support the uptake of renewable energy generation. Image: Scatec. The World Bank Group has approved plans to develop Botswana's first utility-scale battery energy storage system (BESS) with 50MW output and 200MWh storage capacity.

Botswana s photovoltaic and energy storage system

Botswana to launch first utility-scale battery energy storage system

The World Bank Group has approved plans to develop Botswana's first utility-scale battery energy storage system (BESS) with 50MW output and 200MWh storage capacity. The ...
