

Bulgaria new photovoltaic panels selling price

Overview

How big is Bulgaria's solar power market?

This is a large market with rapidly increasing purchasing power. For the first time after a decade, a 58 MW new large-scale solar photovoltaic power plant of the Bulgarian company Real States was connected to the grid in April 2022, with the expectation to be increased to 150 MW.

Are solar panels a viable option for self-consumption in Bulgaria?

Conversely, households and institutions interested in installing solar panels for self-consumption are still stuck with administrative hurdles. In the statistics of the International Renewable Energy Agency (IRENA), Bulgaria had 1.28 GW at the end of 2021 and 1.95 GW just one year later. The measure is expressed in nominal or peak capacity.

How many solar projects are there in Bulgaria?

Currently, Bulgaria operates over 800 megawatts of wind projects. Bulgaria has an annual average of 2,100 hours of solar irradiation. As of 2023, over 1,700 megawatts of projects are operational in Bulgaria, and it is growing substantially. Geothermal energy is gaining attention, with legislative proposals to harness Bulgaria's geothermal potential.

Who owns agrivoltaics in Apriltsi?

The company is controlled by businesswoman Ginka Varbakova. The facility is being built on municipal land in Pazardzhik, in the village of Aprilovo. Total investment is valued at EUR 255 million. The solar panels in Apriltsi are mounted at a height of more than two meters, allowing for agricultural production below (agrivoltaics or agrisolar).
