

Can I buy solar panels

Overview

How much do solar panels cost?

In addition, the specifications of the panels (such as power) and the cost of installation also play a role. On average, you pay around €500 to €600 per solar panel, including installation. The cost of solar panels depends on the number of panels and the power per panel. In general, the more panels you buy, the cheaper the price per panel becomes.

Why should you buy solar panels from solar.com?

Solar.com simplifies the process of buying solar panels by pairing you with an expert Energy Advisor to guide you every step of the way. Better yet, studies by the US Department of Energy have proven that homeowners save money by comparison shopping on solar.com.

How do I buy solar panels?

Solar panels can be bought individually, or purchased in kit form as part of a complete solar system, or purchased through a professional solar company where the solar panels, inverter, other equipment and also the installation and permitting is included in one package. * Prices for Panasonic panels individually.
