Upgrade to the Rocksolar solar-powered water pump system today and enjoy cost-effective, environmentally friendly water pumping.

What types of inverters are available at solar power store?

At Solar Power Store, we offer a wide selection of premium inverters for every type of solar power system — including off-grid, grid-tied, and hybrid setups. Whether you're powering a remote cabin or connecting to the grid, we've got the right inverter for your needs.

What is a solar water pump?

Solar water pumps are perfect solutions for livestock watering, irrigation, and domestic water supply in remote areas with abundant sunshine. These systems are clean, quiet, and convenient. The biggest advantage of solar pumps is that they generate water when you need it the most: during sunny and dry weather.

How do solar water pumps save money?

Solar water pumps are one example of using solar energy to conserve energy and save money. These water pump systems use a solar panel, batteries and a 12- to 24-volt water pump to provide water for a home or irrigation from a

well.

Who makes the best solar inverter?

We carry top-rated products from the best brands in the industry, including Maple Leaf Power Systems, Luxpower, Sol-Ark, EG4, NEP, and more. These manufacturers are known for delivering efficient, durable, and high-performance solar inverters that meet Canadian standards and climate conditions.
