

## Canadian photovoltaic panel ntype manufacturer

#### **Overview**

#### Who makes Canadian solar panels?

Headquartered in Ontario, Canadian Solar Inc. is one of the leading solar manufacturers in Canada. Founded in 2001, the company has successfully delivered over 52 GW of solar modules to customers worldwide. Known for its high-quality solar panels, Canadian Solar Inc. offers a variety of products, from standard solar panels to smart DC modules.

Are Canadian solar panels good?

YES! For 2025, SolarReviews has named Canadian Solar #1 on our list of the best solar panels. The company offers excellent products and has a long history of success and big plans for the future. Based on product quality and the company's longevity and stability, SolarReviews highly recommends Canadian Solar panels.

What technology does Canadian Solar use?

Canadian Solar employs multiple advanced cell technologies in their 450W lineup: PERC Technology: Passivated Emitter Rear Contact cells feature an additional reflective layer that captures light that would otherwise pass through the cell, improving efficiency by 1-2%.
