

Chad Emergency Energy Storage Power Supply

Overview

The system consists of 20 5kWh wall-mounted lithium iron phosphate batteries, ensuring efficient and stable power storage and supply, and meeting the local demand for a reliable power system.

Chad Emergency Energy Storage Power Supply

<u>Chad: EUR28M solar power project to increase energy access</u>

The programme is expected to increase power supply by 20% and pave the way for the country's energy transition from expensive, polluting, fuel-based power to clean energy.
