

Communication base station solar photovoltaic project installation

Overview

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by the DC load of the base station computer room, and the insufficient power is supplemented by energy storage devices.

Communication base station solar photovoltaic project installation

<u>Cabinet</u>

Indoor Photovoltaic Telecom Energy

LZY Energy's Indoor Photovoltaic Energy Cabinets are solar-powered integrated equipment especially designed to meet the requirements of communication base station rooms. They ...
