

Congo photovoltaic combiner box brand manufacturer

Overview

Who is letop – a professional PV combiner box manufacturer?

As a professional PV combiner box manufacturer, LETOP has ten years of expertise in C&I solar sector, providing safe and reliable product solutions for system integrators and engineering companies. As PV generation technology rapidly advances, large-scale ground-mounted plants are evolving towards higher voltage and larger capacity.

What is a 600v DC combiner box?

600V DC combiner box is LETOP's economical solution designed for small PV systems. It offers 1-6 string inputs and 1-2 string outputs. Supports 600V DC system voltage. It also uses high-quality components to ensure overcurrent and overvoltage protection. Suitable for 5kW-10kW small residential rooftop or small commercial PV systems.

What is a 1000v DC combiner box?

1000V DC combiner box is specifically designed for professional combining solutions. It supports 1-16 string inputs and 1-3 string outputs. The maximum support for 1000V DC system voltage. IP65/66 protection rating and optimized heat dissipation design ensure your system operates reliably in complex environments.

What is a 1500V DC combiner box?

Fully meets the requirements of 20kW-50kW large residential rooftop and commercial rooftop PV projects. 1500V DC combiner box is a professional solution tailored for large ground power stations. The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages.

How many string configurations can a combiner box support?

The combiner box supports a maximum of 24 string configurations, it is

suitable for 1500V DC system voltages. It features industrial-level protection design, including string monitoring, RS485 bus/standard MODBUS-RTU protocol, arc fault detection, and fast shutdown/fireman switch functions.
