

Croatia s largest battery energy storage

Overview

IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe. The European Commission has approved, under the European Union's aid rules, a EUR 19.8 million Croatian aid measure in favor of energy storage operator IE-Energy. Will Croatia build Europe's largest energy storage project?

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured €19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW by 2024.

What is Europe's biggest battery storage project?

The 150MW Minety battery storage project being developed by Penso Power in Wiltshire, England, UK is Europe's the biggest battery storage development.

Which country has the largest battery storage system?

The Slovenia-headquartered company was recently in the news for a 20MWh project it commissioned in Austria, which is the country's largest, and it is deploying the largest battery storage systems in neighbouring Slovenia and Croatia, totalling 70MW/140MWh and 50MW/100MWh respectively.

Will ie-energy build the biggest battery system in southeastern Europe?

IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe. The European Commission has approved, under the European Union's aid rules, a EUR 19.8 million Croatian aid measure in favor of energy storage operator IE-Energy.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

Is Croatia ready for solar energy storage?

“There is immense scope for energy storage in Croatia, predominantly for battery storage.” GlobalData says that Croatia is now on target to meet its 36.4% renewable energy target by 2030. However, its recent investment in energy storage has not been accompanied by rapid solar PV development.

Croatia s largest battery energy storage

Croatia's first large battery storage (66 MW) to launch in 2025

Croatia's first large-scale battery energy storage system (BESS) with 66 MW capacity should be completed and commissioned in 2025, its investor IE Energy told Montel on Thursday.
