

Cuban photovoltaic inverter export company

Overview

Is photovoltaic technology in Cuba a good idea?

Bearing in mind the cost of photovoltaic systems and transport costs to Cuba, rental homes and other private businesses seem to be the ones that are being called on to take advantage of this new opportunity. At least in the beginning. However, the mass use of photovoltaic technology in Cuba is also in the State's best interests.

Can a natural person import a photovoltaic system?

As of this Wednesday, July 28, the importation of photovoltaic systems, their parts and pieces, by natural persons, without commercial purposes. In accordance with Resolution 206/2021 published in the Official Gazette of the Republic, such importation is exempt from taxes as it passes through customs.

Why do we need to approve the import of photovoltaic systems?

It adds that in order to continue with the development of renewable energy sources and increase its participation in the electricity generation matrix in the national territory, it is necessary to approve the importation by natural persons of photovoltaic systems, their parts and pieces.
