

Czech containerized power generation for sale

Overview

What is a containerized CHP unit?

The containerized version is designed for outdoor installation so that the CHP unit can be commissioned at the customer's site in a minimum amount of time. Container with the CHP unit functions as a mobile machine room and it is equipped with all the necessary technologies.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for $+45^{\circ}\text{C}$. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What is a containerized power module?

Fueled by natural gas, the power module is dedicated to the production of electrical energy. Containerized power module with a power output of 3MW. Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What is the difference between a CHP and a containerized version?

It is characterized by low noise levels and easy installation at the customer's site. The version with sound enclosure is suitable for all buildings and

industrial sites. The containerized version is designed for outdoor installation so that the CHP unit can be commissioned at the customer's site in a minimum amount of time.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +40°C. The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers.

Czech containerized power generation for sale

Containerized Generator Set Solutions

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...
