

Double-glass photovoltaic curtain wall installation in Bangladesh

Overview

Is double glazing a new idea for Bangladesh?

Although Double glazing is pretty nearly a fresh idea for Bangladesh but we constantly explore the innovative development in this industry and enhance our product list by launching new products which is suitable considering our weather and economy . 1. Double Glazed Sliding Windows 2. Double Glazed Sliding Doors 3. Double Glazed Top Hung Windows 4.

What is a PV curtain wall?

The PV curtain wall is the most typical one in the integrated application of PV building. It combines PV power generation technology with curtain wall technology, which uses special resin materials to insert solar cells between glass materials and convert solar energy into electricity through the panels for use by enterprises.

Are PV curtain walls good for commercial buildings?

Compared with ordinary curtain walls, PV curtain walls can not only provide clean electricity, but also have the functions of flame retardant, heat insulation, noise reduction and light pollution reduction, making it the better wall material for glass commercial buildings. (1) On-Grid PV Curtain Wall Power Generation Schematic Diagram.

What is on-grid PV curtain wall?

On-Grid PV curtain wall has the dual characteristics of glass building materials and PV power generation. As a building material for power generation, PV curtain wall is mainly applied to the lighting roof, curtain wall facade, shading wall and other areas of commercial high-rise buildings. (1) Application Scene.

What are the different types of PV curtain wall?

At present, there are two main technical modes of PV curtain wall: one is crystalline silicon curtain wall and the other is amorphous silicon curtain wall.

Crystalline silicon curtain wall is a building material combining polycrystalline or monocrystalline silicon module array with the curtain wall.

Why should you choose bdgl double glazed windows & doors?

Double glazed glass windows and doors act as an energy saving product which keep rooms warm during winter & cool in summer with the minimum air-conditioning or heating cost. Strict quality control is ensured in all material used for BDGL double glazing solutions.
