

East Asia Energy Storage Power Station Manufacturing Plant

Overview

Project total investment of 2 billion yuan, plans to be implemented in phases: a project will be launched in the first quarter of 2025, leasing plant 15,000 square meters, the construction of 2GWh energy storage equipment production line and 1GWh lithium iron phosphate electrochemical energy storage station, is expected to be completed in the third and fourth quarter of the commissioning of the equipment and put into operation.
