

# **Egypt container power generation BESS**

### **Overview**

The BESS, currently under commissioning, is scheduled to come online by July 2025 It will deliver about 100,000 MWh and reduce nearly 20,000 tons of CO2 emissions annually, helping Egypt meet its target to cut emissions from its power sector by 37 percent.

### **Egypt container power generation BESS**

# Egypt set for 1.1 GWh of battery storage across three projects

Amea Power said the Benban site will be the largest solar-plus-BESS project in Africa, while the Abydos project will represent the first ever utility-scale BESS solution in Egypt.
