

Electric fishing inverter price

Overview

How much power does an electrofisher need?

Overload protection. Power supply from battery from a UPS or from a car battery (7-10 AH battery sufficient on 1-2 hours of electrofishing). Warranty- 1 year. The electrofisher catches various fish very well. 7 Ah (1-2 hours of electrofishing) Larger battery-longer fishing.

Who sells electrofishing equipment?

Sold by STARSNY Electronics and ships from Amazon Fulfillment. Sold by uvBeast (tm) and ships from Amazon Fulfillment. Sold by HASLE OUTFITTERS and ships from Amazon Fulfillment. Some of these items ship sooner than the others. Introduction: Electrofishing uses direct current electricity flowing between a submerged cathode and anode.

How does electrofishing work?

Introduction: Electrofishing uses direct current electricity flowing between a submerged cathode and anode. This affects the movement of the fish so that they swim towards the anode where they can be caught. Electrofishing is a common scientific survey method used to sample fish populations to determine abundance, density, and species composition.
