

Energy Storage Project Subsidies

Overview

What is New York state's energy storage plan?

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers.

How many energy storage projects will be financed by MITECO?

MITECO anticipates 80 to 120 energy storage projects will be financed by the scheme before 2030 and will have a total project capacity of 2.5 GW to 3.5 GW. A public consultation exercise about the proposed funding program opened on Monday and will close on Friday.

What are the benefits of energy storage projects?

Energy storage projects will improve the reliability of transmission and distribution systems, especially in traditionally high-energy cost rural areas; more efficiently supply energy at peak periods of demand on the grid; and increase use of existing equipment, postponing or eliminating the need for costly upgrades.

How will energy storage affect New York's energy grid?

In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. Storage will increase the resilience and efficiency of New York's grid, which will be 100% carbon-free electricity by 2040. Additionally, energy storage can stabilize supply during peak electric usage and help keep critical systems online during an outage.

Are energy storage solutions transforming the electric power industry?

Energy storage solutions are transforming the electric power industry and helping to accelerate the full decarbonization of the electric grid.

Can Spain deploy large-scale energy storage with co-financing of 85%?

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%. The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain.
