

# **Energy storage battery warranty standards**

## Overview

---

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. What is a solar battery warranty?

Solar battery warranties vary by manufacturer and product. A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery.

What is a battery energy storage system (BESS) warranty?

As challenging as warranties are for battery energy storage system (BESS) owners and operators, it is possible for there to be more clarity. Look no further than how the automotive industry handles electric vehicle warranties. They are simple and flexible, typically covering time (usually eight years) and mileage (usually 100,000 miles).

How long does a battery warranty last?

A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery. Battery warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.

Do you need a warranty for energy storage?

It does not matter if you accelerate fast and brake hard, run your gas tank to empty, and never change your oil! Operational requirements are common in energy storage warranties. Even with significant improvements in cell and system technology alongside cost reductions, warranty terms have become more complex.

Which battery storage system has the strongest warranty?

Comparisons should focus on product warranty terms, end of warranty capacity, labor warranty terms, and transferability. Based on our ranking system, SolaX Power has the strongest overall warranty. Why are battery warranties important?

A battery storage system is a decades-long investment that a warranty can help protect.

Does a battery storage system need a warranty?

A battery storage system is a decades-long investment that a warranty can help protect. The less power your system stores, the more your home may need to draw from the utility company, which eats into your savings. A good warranty ensures that if your battery experiences a problem, that it will be replaced and your investment will be protected.
