

# **Estonian rooftop solar panel manufacturers**

## Overview

---

What is Solarstone doing in Estonia?

Solarstone is reinforcing Estonia's commitment to sustainable energy solutions by opening Europe's largest solar roof factory to produce 14 times as many building-integrated solar roofs as Tesla in the U.S. The factory can assemble 13,000 integrated solar panels per month.

What is a solar roof system?

The Solar Roof system consists of standard PV panels fitted with Click-on technology and aluminum composite panels (ACPs). "Its size is variable and is suitable for residential projects, carports, and facades," the company's CEO said, noting that the panels can be installed in either a landscape or portrait configuration.

Who makes Solarstone solar panels?

The new factory is backed by investments from Estonian-based companies Sunly and Biofuel. The Solarstone product goes beyond a standard rooftop solar panel. Their building-integrated photovoltaics (BIPV) serve a dual purpose as both a roofing material and an energy generator, turning sunlight into electricity.

Where is Solarstone based?

Solarstone's factory in Viljandi is located on an area of 1,200 sqm, where anyone can pay a visit (with prior notice) and get acquainted with the product range. „With today's setup, we can produce 20,000 tile interlocking solar modules per year, resulting in approximately 715 design solar roofs and 25,000 Click-on kits.

Can solar panels on roofs be aesthetic?

Solar panels on the roofs can be aesthetic to look at for the naked eye – three guys, the founders of Estonian CleanTech startup Solarstone, figured out how

this can be done.

Is roofit solar a sustainable design?

Roofit.Solar was recognized in the “Sustainable Design” category for its standing seam solar roof, Velario® Slim. 25. March, 2025 Prince William of the United Kingdom met with representatives of the Estonian Green Technology Association to learn about Estonia’s innovative solutions in the field of green technology. 4. March, 2025
