

Finland site energy battery cabinet franchise system

Overview

Is this Finland's largest battery energy storage system?

Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy to develop what is claimed to be Finland's largest and one of the Nordics' largest battery energy storage systems (BESS). The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland.

Will there be a battery storage unit in Finland?

The construction for the battery storage unit is on-going. Customer Manager Antero Reilander from Fingrid says that Neoen inquired – via a consultant – in October 2019, if there would be suitable plot for battery storage facility somewhere in Finland.

Are energy storage systems a solution to Finland's energy transition?

Energy storage systems offer a solution. "This groundbreaking is an important moment for Finland's energy transition and a concrete step toward a more flexible, resilient, and decarbonized energy system," said Jussi Jyrinsalo, Senior Vice President at Fingrid.
