

French ecological photovoltaic panel manufacturer

Overview

French manufacturer of photovoltaic panels, Photowatt has been a leader in low carbon footprint and a pioneer in the solar industry for 40 years. What is France PV industry?

France PV Industry: an ambitious photovoltaic industrial project to accelerate the ecological transition in France. Key players in French solar, the Alsatian industrialist Voltec Solar and the Photovoltaic Institute of Île-de-France (IPVF) are joining forces to give birth to a new photovoltaic industrial sector.

Are SunPower solar panels made in France?

In its second decade of service, SunPower has consistently strived for innovation, delivering a diverse range of solar panels made in France. These include their signature Maxeon® and Performance series panels, recognized for their top-tier efficiency and robust design.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.
