

Greek lithium power energy storage manufacturer

Overview

LiTH.OS Cell develops and commercializes innovative LFP cells for motive power & ESS applications, while reducing the environmental impact of manufacturing. Leading an EU funded collaborative initiative with significant academic and industrial partners for the recycling of spent LFP cells. Where are lithium ion batteries made?

There will also be further expansion of the assembly plants in Verona, Italy and North Carolina, United States. The €20m for lithium-ion batteries will also see an assembly line for prototyping and R&D purposes alongside the three production lines for off-road mobility, industrial use, and Energy Storage for renewables.

Why is lithium recycling important?

These innovative energy solutions serve the intralogistics and energy storage markets contributing to international expansion and growth. Groundbreaking lithium recycling activities allow LiTH.OS Cell to realize its vision to achieve a complete LFP batteries value chain.

What will sunlight's lithium battery technology be used for?

A company spokesperson told Energy-Storage.news today that Sunlight wants the lithium battery technologies it develops to play a key role in areas including automated guided vehicles, electric buses and shipping, as well as in “smart storage systems for renewable energy sources”.

How much money does sunlight get for a lithium-ion battery project?

Image: SUNLIGHT. A €105 million (US\$127.6 million) push to develop low-cost, environmentally-friendly lithium-ion battery technology by Sunlight, a designer and manufacturer of batteries headquartered in Greece, will receive €49.9 million in grant funding.

Where are LFP lithium cells manufactured?

of LFP lithium cells to be developed and manufactured in one of the biggest Gigafactories in Europe created for highly-skilled employees recruited and trained from the local communities of Northern Greece.

How can Lith OS cell achieve a complete LFP battery value chain?

Groundbreaking lithium recycling activities allow LiTH.OS Cell to realize its vision to achieve a complete LFP batteries value chain. LiTH.OS Cell fosters a new battery Ecosystem in Europe, in tandem with Sunlight Group's multiple facilities, and aligned with planned international investments.
