

High power solar 15kw water pump inverter

Overview

What is a 15 kW solar water pump inverter?

15 kW solar water pump inverter with MPPT, AC output current 32A at 3-phase, RS485 communication, and IP20 protection rating. The water pump solar inverter supports AC and DC input, recommended DC MPPT range (350V, 750V). With a forced cooling fan, the pump inverter can work at (-10°C, 40°C).

What is water pump solar inverter?

The water pump solar inverter supports AC and DC input, recommended DC MPPT range (350V, 750V). With a forced cooling fan, the pump inverter can work at (-10°C, 40°C). It is widely applied in irrigation of small farms, greenhouses, domestic use, etc.

Can a 1hp water pump be powered by a solar inverter?

A 1HP DC surface pump can directly be powered by solar panels. The solar panel converts the sun's energy into DC electricity, which in turn powers the pump and moves the water up to higher levels. This type of solar water pump does not require a solar inverter to convert DC generated by solar panels into AC electricity.

Why should you choose a 15 kW solar pump inverter?

The superior performance 15 kW solar pump inverter is compact, and the sturdy shell has good anti-fall, flame retardant, anti-aging, and corrosion-resistant features, effectively isolates moisture and dust, has stable operation, and is safe and reliable.

What is a 15kW solar variable frequency drive?

It is widely applied in irrigation of small farms, greenhouses, domestic use, etc. 15kW solar variable frequency drive comes with self-protection and automatic sleep function and works at (-10°C, 40°C), storage temperature is

between (-20°C, 60°C). The pump inverter's humidity is less than 95%RH, without condensing.

How much humidity does a solar pump inverter have?

The pump inverter's humidity is less than 95%RH, without condensing. AC output current 32A at 3-phase 380V recommended DC MPPT range 350V~750V. Solar pump inverter adopts advanced MPPT control technology, real-time detection of solar panels power voltage, tracking the highest voltage and current, efficiency is as high as 98%.

High power solar 15kw water pump inverter

[CKMINE 15KW 380V Three Phase Solar Water Pump Inverter ...](#)

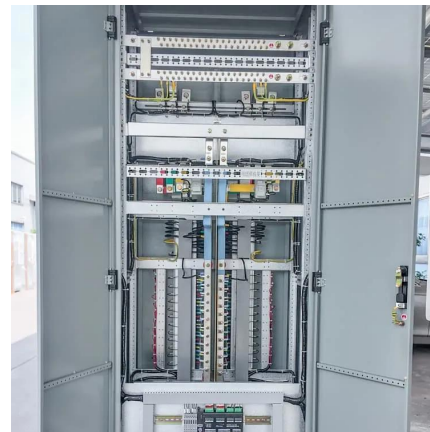

The CKMINE 15KW 380V Three Phase Solar Water Pump Inverter is the perfect choice for anyone looking to harness the power of the sun to pump water efficiently and sustainably.
