

Household 120w split solar all-in-one machine

Overview

What is a Sol-Ark 12K hybrid inverter?

Optional add-on in case larger pair of CT's are needed. The Sol-Ark 12k includes a pair of 100 Amp CT's. The Sol-Ark 12k Hybrid Inverter Outdoor Case is an all-in-one pre-wired 120/240/208V inverter system featuring new capabilities such as systems gains and true three phase. Perfect for Grid-tied, Off-Grid, or 48V battery backup solar systems.

Which solar inverter should I buy?

For smaller scale systems, we highly recommend the Sol-ark 8k. Contact us for help figuring out which inverter is right for you! When stacked up against similar systems, the Sol-Ark 12k Outdoor Case is not only the most affordable but also the most efficient and innovative solar inverter on the market!.

What is a Sol-Ark solar inverter?

Sol-Ark inverters also do not have expensive battery restrictions like other solar inverters do, and can be used with a wide variety of 48V battery chemistries, from lead to lithium. Proven to last well beyond the standard 10 year warranty Talk to a US Based Engineer 7 days a week Fastest transfer time in the industry.

How many Watts Does a solar inverter need?

Because the idle consumption is high on these all-in-ones, you will need at least 400 watts of solar panels attached to your system to offset the loss. If you do not plan to have your inverter on 24/7, this is not a problem. Some models have a lower solar panel array input voltage (usually 60-148VDC).

Do I need a combiner box for a solar array?

If you plan to connect a large solar array, you will probably need to put your panels in parallel to keep the voltage down. When you have more than 2 strings of panels in parallel, you need over current protection for each string.

This is easily accomplished by using a combiner box. They are available below.
