

How much is the outdoor power supply per kilowatt-hour

Overview

How much does electricity cost per kilowatt-hour?

Calculate: Click the calculate button to obtain the total cost of electricity consumption. Suppose you consumed 300 kWh of electricity, and the cost per kilowatt-hour is \$0.12: $\text{Total Cost} = 300 \text{ kWh} \times \$0.12 = \$36.00$ So, the total cost for this example would be \$36.00.

How much does 40 watts / 1000 kWh cost?

$40 \text{ watts} / 1,000 \times 12 \text{ hours} \times \$0.15/\text{kWh} = \$0.072$ This electricity cost calculator works out how much electricity a particular electrical appliance will use and how much it will cost. This calculator is a great way of cutting back on your energy use and saving on your electricity bills.

What is the kilowatt hour cost calculator?

Understanding the cost of electricity is essential for effective budgeting and energy conservation. The Kilowatt Hour Cost Calculator is a valuable tool that allows users to estimate the cost of electricity consumption based on the number of kilowatt-hours (kWh) used.

How much does 1 kWh cost?

As you can see from the chart, 1 kWh can cost anywhere from \$0.10 to \$0.30 (in some states, you may pay even less than \$0.10, and in California, the electricity prices per kWh can cross \$0.30/kWh). With the kilowatt-hour calculator and this chart, you can simply figure out how much will any amount of electricity (kWh) cost.

How much does 500 kWh of electricity cost?

Let's say you spent 500 kWh of electricity and the electricity rate in your area is \$0.15/kWh. Just slide the 1st slider to '500' and the 2nd slider to '0.15' and you get the result: 500 kWh of electricity at \$0.15/kWh electricity rates will cost \$75.00. Now, this is just one example. We will look at how much you will

pay for 1-10000 kWh at:.

How does the electricity cost calculator work?

The electricity cost calculator is designed to help consumers estimate and monitor their electrical energy consumption costs. Let's say you want to calculate the cost of running a 1500-watt space heater for 6 hours daily. Electricity cost calculator would help you determine both daily and monthly costs based on your local electricity rate.

How much is the outdoor power supply per kilowatt-hour

Price to Compare

Combining the electric supply charge and the transmission services charge, the ComEd Price to Compare effective June 1, 2025 is 10.028 cents per kWh.
