

How much is the price of photovoltaic panels in the Middle East

Overview

How big is the Middle East & Africa solar photovoltaic (PV) market?

The Middle East & Africa solar photovoltaic (PV) market size was valued at USD 5.00 billion in 2022. The market is projected to grow from USD 6.93 billion in 2023 to USD 37.71 billion by 2030, exhibiting a CAGR of 27.4% during the forecast period. Solar panels form the heart of any solar energy system.

What is the competitive landscape of solar photovoltaic market?

The competitive landscape of this market depicts a market share dominated by solar photovoltaic manufacturers which hold a superior position in the global market. The competitive landscape which has well-established supply chains with preference from customers dominated the market in the Middle East too.

How many solar panels will Oman produce in 2023?

January 2023: Oman Power and Water Procurement Company (OPWP) announced solar energy projects Manah 1 and 2 worth USD 777 million. The project is likely to procure 2 million solar PV panels. It will jointly produce a total of 1,000MW, which is set to come up by the end of 2025 on a 15 million sq m area within the Governorate of A'Dakhiliyah. 1.

Is the Persian Gulf a leader in photovoltaic deployment & pricing?

Over the last several years, the oil-rich Persian Gulf region has emerged as a global leader in photovoltaic deployment and pricing.
