

# Huawei supports energy storage projects

### **Overview**

Huawei has invested a staggering \$16 billion in energy storage projects, focusing predominantly on technological innovation and advancements in renewable energy integration, seeking to enhance grid stability and efficiency. Who is responsible for Huawei energy storage system?

Among them, the ACWA Power will be responsible for the developer's part while Shandong Power will provide the EPC (Engineering, Procurement, and Construction) supplies. In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China.

Is Huawei a TÜV SÜD certified grid-forming energy storage system?

In related news, Huawei Digital Power, in collaboration with SchneiTec, recently commissioned Cambodia's first TÜV SÜD-certified grid-forming energy storage project on June 11, 2025. This 12 MWh system includes a 2 MWh testbed that validated Huawei's grid-forming ESS technology.

Is Huawei preparing for energy storage in 2021?

In July 2021, Huawei filed an energy storage system patent that was publicly shared on July 9th in China. This patent targets to normalize the hardware architecture and provides convenient maintenance with reduces costs. We can see the company has a long time preparation for the energy storage which is now gradually starting to implement in actual.

What is Huawei doing to protect the environment?

At the webinar, Huawei showcased its technological innovations and achievements in environmental protection to global audiences. Huawei has continued to invest in new technologies, guided by the strategy of reducing carbon emissions, increasing the use of renewable energy, promoting the circular economy, and conserving nature with technology.

What is Huawei digital power?

Huawei Digital Power is dedicated to enhancing the safety and stability of renewable integration by combining digital and power electronics technologies, leveraging technical experience, and collaborating with global power companies, grid enterprises, and electricity providers.

Is Huawei digital power a DNV certified power inverter?

The system's design incorporates multi-layered safety features, and its battery packs, designated "Panshi," have undergone DNV-verified ignition tests. Huawei Digital Power is also recognized as a Tier 1 Power Inverter and Energy Storage Manufacturer by BNEF.
