

Hungarian communication base station inverter grid-connected equipment brand

Overview

What is a photovoltaic inverter station?

The photovoltaic inverter station is designed to help large-scale PV plants meet complex technical requirements and the most challenging grid codes. Power Plant Controller (PPC) provides unparalleled renewable and storage power management via monitoring and control solutions.

What is a grid-connected inverter?

Grid-connected inverters play a pivotal role in decentralized energy generation. They are the key element for integrating renewable energy into our power grids.

What is a wide bandgap semiconductor?

Wide bandgap semiconductors represent an innovative alternative to conventional power electronics based on silicon technology for grid-connected inverters. Integrating wide bandgap semiconductor solutions typically enhances inverter efficiency and reduces volume.

Hungarian communication base station inverter grid-connected equ

Grid-connected inverters

AIT is a pioneer in the research, development, and testing of innovative functionalities for grid-connected inverters, enabling a high share of ...
