

Indonesian BMS battery management control system company

Overview

Who is PT Indo Energi Elektrik?

PT. INDO ENERGI ELEKTRIK started in Indonesia in 2018. The company is engaged in research and development, production and sale of energy distribution systems, standard lithium battery modules, a lithium battery energy storage system (ESS), a battery management system (BMS) and a power location platform.

What is battery management systems (BMS)?

Battery Management Systems (BMS) is an electronic devices component, which is a vital fundamental device connected between the charger and the battery of the hybrid or electric vehicle (EV) systems.

Who is PT modular energy Indonesia?

We provide innovative system integration for BESS, PCS, and Advanced UPS. PT Modular Energy Indonesia specializes in integration of innovative energy storage solutions, focusing on battery energy storage system (BESS) and power conversion systems (PCS). BESS Indonesia system integrator.

What does BMS stand for?

Within that, its renewable energy group is developing a battery management system (BMS) for battery storage with an industry partner. It also signed an October 2022 collaboration agreement with Malaysian automation and assembly company Genetec Technology, to work on the development of BESS technology.
