

Ireland container battery energy storage system

Overview

The Gorman battery system, with an installed capacity of 50 MW, is our world's first commercial-scale battery system and the first in Ireland. This project is part of our commitment to promoting battery storage as a key driver of the world's energy transition.

Ireland container battery energy storage system

Container Energy Storage Systems

Atlas Copco container energy storage system range with nominal power of 250-1000kW integrates our reliable battery ESS solutions into demanding applications, reduces fuel ...
