

Irish lithium energy storage power supplier

Overview

Are battery energy storage systems a 'great achievement' in Ireland?

ESB Networks described the project as a “great achievement for battery storage” in Ireland. Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland’s fledgling renewable energy sector and demand for them has never been higher.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

How does electricity storage work in Ireland?

For context, peak demand on Ireland’s electricity system is approximately 5.5 GW. Electricity storage systems such as utility-scale battery projects also provide essential backup services to the grid that help to keep the electricity supply secure, reduces carbon emissions and ultimately reduces costs to the consumer.

What can ESB do for Ireland's Electricity System?

Large-scale battery energy storage projects and Turlough Hill pumped storage power station combine to reach milestone that can help to provide flexibility and support more renewables on Ireland’s electricity system. Today, ESB Networks has announced that it has 1,000 MW (one Giga Watt) of electricity

storage connected to Ireland's network.

Can Li-ion batteries be made in Ireland?

Having seen the great benefits that could be offered to the Customer with Li-Ion, Particularly Lithium Iron Phosphate for Lead acid replacement he was eager to push ahead and manufacture Li-Ion Batteries in Ireland If you have any queries or questions about our batteries, please get in touch and we'll be happy to help.

Irish lithium energy storage power supplier

Battery Storage

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale ...
