

# Japanese outdoor battery cabinet BMS standard

### **Overview**

What is a 3 level battery management system (BMS)?

Our 3-level battery management system (BMS) guarantees safe operation by continuously monitoring all critical parameters at three distinct levels: the cell level, battery module level, and battery cabinet level. Additionally, the HISbatt 215-A features an independent aerosol-based active fire suppression system.

What is his-energy's premium Battery Cabinet?

HIS-Energy's Premium Battery Cabinet Solution: Engineered for Both Outdoor (IP54 Rated) and Indoor Installations. From peak shaving and emergency power supply to powering EV charging stations, our smart HIS- EMS seamlessly manages your energy needs.

Are the battery cabinets modular?

Whether you're planning an on-grid project or an off-grid solution, the battery cabinets are designed to be modular and easily expandable in the future. We've designed our solutions to guarantee safety and comfortability for you. All our battery solutions are forklift-ready and can be easily installed at the site.
