

# Kosovo Grid Energy Storage

## Overview

---

Let's face it: Kosovo's energy grid has been running on caffeine and hope for years. With 85% of its electricity from aging coal plants and frequent blackouts during peak demand, the country needed a lifeline—fast. Enter the 200MWh battery storage project, funded by a \$234 million U.S. grant [1] [2].

## Kosovo Grid Energy Storage

---

### Prequalification open for 170 MW of battery storage in Kosovo\*

The subproject will be instrumental in enhancing the stability of the power grid and improving the management of energy imbalances, the call reads. It is the biggest investment in ...
