

Libya inverter voltage

Overview

Just like the rest of Africa, the voltage in Libya is 230 volts and the frequency is 50 Hz. Click here for a global map showing the spread of the different plug types used around the world.

Libya inverter voltage

Libya Voltage and Power Plug Guide

? Important Reminder: In Libya, the voltage is 127V/230V. Tourists should ensure that their electrical devices are compatible with this voltage to avoid damage or safety hazards.
