

Mali Energy Storage Power Station

Overview

The power station is located in the settlement of Fadougou, in , in the in southwestern Mali, near the border with . Fekola Gold Mine is located approximately 61 kilometres (38 mi), so.

Before 2019, the Fekola gold mine had a legacy thermal power station with capacity of 68 megawatts. The thermal station has six units, with each unit capable of generating 11.33 MW at maximum output. These unit.

The addition of the solar farm and the battery storage system allows the power station to rest three of the six thermal generators during the day. This allows the electricity demand of the gold mine during daytime to.

Mali Energy Storage Power Station

[Mali Energy Storage Mobile Power Supply](#)

A portable power station, also known as a portable battery pack or a portable power supply, is a self-contained unit that stores electrical energy and can be used to power electronic devices.
