

Mali photovoltaic combiner box manufacturer

Overview

Who is letop – a professional PV combiner box manufacturer?

As a professional PV combiner box manufacturer, LETOP has ten years of expertise in C&I solar sector, providing safe and reliable product solutions for system integrators and engineering companies. As PV generation technology rapidly advances, large-scale ground-mounted plants are evolving towards higher voltage and larger capacity.

What is a 600v DC combiner box?

600V DC combiner box is LETOP's economical solution designed for small PV systems. It offers 1-6 string inputs and 1-2 string outputs. Supports 600V DC system voltage. It also uses high-quality components to ensure overcurrent and overvoltage protection. Suitable for 5kW-10kW small residential rooftop or small commercial PV systems.

Why should you choose a solar combination box?

Our Solar Combiner Boxes are equipped with UL Listed DC disconnects and fuses for added protection against overcurrent and arc faults. Plus, our NEMA 4X outdoor aluminum enclosures provide weather-resistant and corrosion-proof housing.

What is included in a combiner box?

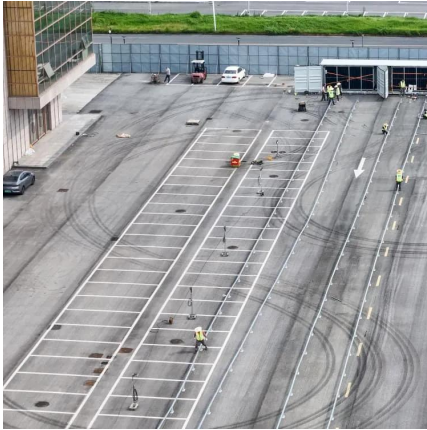

Each combiner box comes with advanced features including up to 1500V 400A UL Listed DC Disconnects and UL Listed Fuses from 10A to 56A, delivering unbeatable performance with utmost safety.

How many string configurations can a combiner box support?

The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages. It features industrial-level protection design, including string monitoring, RS485 bus/standard MODBUS-RTU protocol, arc fault detection, and fast shutdown/fireman switch functions.
