

Marshall Islands company builds base station energy management system

Overview

How does Marshalls Energy Company pay a project?

All project payments are in the form of checks from the renewable energy account and require two approved signatories, one each from MEC and the Min. of R&D. Marshalls Energy Company is audited every year by the international Auditing Firm Deloitte and the accounts for this program will be included as part of the annual MEC audit operation.

What does the Marshalls Energy Company do?

“The Marshalls Energy Company is a semi-autonomous utility company responsible for the generation, distribution and sale of electricity on a number of islands and atolls within the Republic of the Marshall Islands.”.

Where are Marshalls Energy's Solar panels located?

The Marshalls Energy Co.'s solar panels are on school and government building rooftops. Photo courtesy of Marshall Islands Energy Co. In order to stabilize power service, the Marshalls Energy Co. was forced to import more than half-a-dozen rental containerized generators last year that currently provide the backbone of Majuro's power.

Who audits Marshalls Energy Company?

Marshalls Energy Company is audited every year by the international Auditing Firm Deloitte and the accounts for this program will be included as part of the annual MEC audit operation. With the management systems in place, progress in now being made with the activation of the Mejit Island installations.

How long does it take to build Marshalls power plant?

Demolition and clearing of the first power plant which opened in 1982, is nearly completed with construction of the new facility expected to start later in May. The new plant building is expected to take about seven months to construct, Jack Chong-Gum, CEO of the Marshalls Energy Co., said.

Does MEC sell LPG gas in the Marshall Islands?

Apart from generating electricity from diesel and solar installations, MEC is also the distributor of LPG gas throughout the Marshall Islands with a 33,000 pound bulk storage capacity, which is decanted into smaller bottles.
