

Mobile Energy Storage Cabin Photovoltaic

Overview

A 100% off-grid standalone portable cabin that uses photovoltaic modules to charge Lithium-Ion battery storage in order to operate appliances required for office and camp use. It does not require any electricity generated by burning fuel. The sizes of the portable cabins are 22 and 27 square meters.

Mobile Energy Storage Cabin Photovoltaic

<u>Portable Solar Generators</u>, <u>Solar Pod</u>, <u>EasyCabin</u>

The Solar Pod (patent pending)portable solar generator significantly reduces carbon emissions and fuel costs associated with power provision by ...
