

Morocco Microgrid Energy Storage System Manufacturer

Overview

Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.

Is Morocco aiming for 52% renewables by 2030?

Morocco is aiming for 52% renewables by 2030. The Ministry of Energy and Water Resources (MoEWR) of Somalia has invited bidders for the design, supply, installation, testing and commissioning of a 10MWp solar, 20MWh BESS project.
