

Morocco electricity storage prices

Overview

How much does electricity cost in Morocco?

The electricity price for businesses is MAD 1.072 kWh or USD 0.118. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Morocco with 150 other countries. Historical quarterly data, along with the latest update from June 2025 are available for download.

What type of energy is produced in Morocco?

Based on the United States Energy Information Administration data from 2022, electricity in Morocco is produced from the following sources: fossil fuels 81.89%, wind 12.96%, solar 3.51%, hydro 1.64%, nuclear 0.00%, and geothermal 0.00%. You can also compare the energy mix of Morocco to other countries.

Are electricity activities taxable in Morocco?

Electricity activities are subject to the Moroccan Tax Code and Customs Code in the same way as other commercial activities. However, the following provisions apply specifically to electricity activities: Electricity meter rentals are subject to value added tax (VAT) at 7% (instead of the 20% standard VAT rate).
