

Morocco energy storage fire equipment manufacturer

Overview

What types of fire protection systems does FirePro Engineering offer?

At FirePro Engineering, we offer a variety of cutting-edge fire protection systems and equipment to make your property safe from disastrous flames. These include gas detection systems, sprinklers, fire doors, and extinguishing agents, among others.

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.

Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.
